Special parts of the Old Testament

The names of the Biblical books and the order of their arrangement is that of the Authorized Version of the English Bible. Variations in the form of names as they occur in the Douai Bible are enclosed in parentheses after the Authorized Version name. Names of books that the Authorized Version includes with the Apocrypha--in editions containing the Apocrypha--are inserted in the Authorized Version order of the books at the most suitable place and reference is made to BS1691-1825.5. However, if a book like the History of Susannah is part of the book of Daniel in the Douai Version, no account is taken of the fact.

Other libraries using this classification must decide in advance which edition they will follow (Authorized Version, Douai, Hebrew Bible). If the Douai Version is followed, brackets around numbers so enclosed are canceled and numbers BS1691-1825.5 are instead enclosed in brackets.

Inserted into the order of the books are the names of groups, e.g. Pentateuch, the most comprehensive always preceding. This applies also to group names, as they occur in the Hebrew Bible, e.g. Five Scrolls. Similar arrangement is provided for frequent combinations that have no particular name of their own, e.g. Psalms, Proverbs, Job. Liturgical lessons are likewise included, not from a liturgical point of view but from that of Biblical studies.
